About Me

Hi, I'm Shaun and I'm passionate about all things Front-End. I work hard, I care about writing good, functional code and I genuinely love to learn. I'm currently looking for the right opportunity that will help me excel in a professional front end role suited to my interests and skill set.

Web Development Experience

My Projects:

[API Weather Application](#):

A front end weather app that displays the weather from the VisualCrossing API for the users location gathered from JavaScript Geolocation API.

- You can check out my code for this project [here](#).

[JavaScript Game Show App](#):

A phrase guessing game that displays a randomly chosen phrase in hidden format and prompts the user to try and figure out and enter the phrase using an onscreen keyboard.

- You can check out my code for this project [here](#).

[Interactive Photo Gallery Application](#):

A front end photo gallery application utilizing the Lightbox plugin to display fullscreen photos with captions on click as well as a custom search bar that allows users to search through the photos and display only those images that match their search query.

- You can check out my code for this project [here](#).

Experience:

Expert – Sphere Knowledge Ltd.

- Assisted clients in acquiring the sought knowledge in my area of expertise.
- Interacted with a variety of people using the web-side chat client.
- Ensured accurate delivery of information to relevant connections.
